Holidays Homework
Class 1 (2017-18)

Dear Parents

Summer vacations are synonymous with fun , frolic , getting up late in the morning, playing for longer hours with friends , going for picnics , exploring places and watching fun filled shows on television .

But this is also the best time when you can connect with your child in many ways. As you are your child's first and important teacher, you can encourage your child's love for learning by participating in educational activities at home. Working together on the activities will help your child build confidence, learn to reason and develop educational skills.

You can do many things to make your summer vacations interesting , meaningful and full of fun while still doing all your favourite things.

Here is a "SUMMER VACATION ACTIVITY TREASURE BOX" just for you . So, get ready for your treasure hunt along with your kids.

- Encourage your child to cultivate the reading habit.
- Take your child for morning walk and talk about things you see around.
- Play indoor games with your child like ludo, carom board and scrabble etc.
- Encourage your child to go outdoors rather than being a couch potato, sitting in front of the computer / television all day.
- Spend some quality time with your child and have fun together.
- Communication skills play a pivotal role in grooming the overall personality. Converse regularly with your child preferably in English. Encourage your child to read children's magazine.
- Let your child help around the house doing small jobs like dusting, cleaning the table, filling water bottles, watering the plants etc.

Read the following books and encourage your child to see the TV serials/movies mentioned below throughout year to improve their reading and listening skills and enhance their knowledge and vocabulary.
