PREFACE

"YOU CANNOT TEACH A CHILD ANY MORE THAN YOU CAN GROW A PLANT. THE PLANT DEVELOPS ITS OWN NATURE. THE CHILD ALSO TEACHES ITSELF. EDUCATION IS THE MANIFESTATION OF THE PERFECTION ALREADY IN MAN" - **SWAMI VIVEKANAND.**

We as facilitators of education have firm faith in this philosophy. Our aim is to guide children to develop themselves as outstanding, self-reliant members of society with right values.

Our innovative, child-centered curriculum has been designed with a view to ignite the curious mind of children and promote wholesome learning. A do-and-learn approach has been adopted which helps children become proactive learners. We have adopted an interdisciplinary approach in order to make learning a stimulating experience. Personal, emotional, physical and social development share equal space with intellectual and cognitive growth.

This syllabus enables children to acquire language proficiency, streamline their chain of thoughts and develop creative imagination. They investigate, observe and explore the environment in greater depth. Numbers are an integral part of our daily routine-hence we lay emphasis on making mathematics meaningful.

The exercises and related activities mentioned in the syllabus enhance the children's learning power and adequately support their development.

We request parents to go beyond the classroom, spend quality time with children and gently guide them when they falter. This will make learning a joyous experience.
