PREFACE

Curriculum planning is a continuous process. It is crucial in the context of education and plays an important role in bringing out desirable social, economic and cultural changes. By designing relevant and detailed syllabi for different stages of school education an important link is established between educational objectives and the expected developmental goals in a systematic and graded manner.

It is imperative to consider the various issues and concerns in education and relate them to social, economic and cultural issues along with numerous other issues related to environment, industry, agriculture conservation of natural resources, defence, health, nutrition and population and give fresh look to these issues while designing syllabus in an integrated manner. There is also an urgent need to address some other educational concerns like eliminating imbalances, facing the impact globalization, meeting the challenges of information and communication technology, linking education with life-skills and harnessing education for value development. Emphasis is laid on the process of learning and developing necessary academic and social skills more than acquisition of facts.

The National Curriculum Framework for school Education recommends a common scheme of studies for the upper primary stage (3 years) with emphasis on the skills of learning. This scheme of studies is as follows :

1. Three Languages - mother tongue / regional language, modern Indian language and English
2. Mathematics
3. Science and Technology
4. Social Science
5. Work Education
6. Art Education - Fine Art, Visual and Performing
7. Health and Physical Education

The prescribed syllabus is an excellent course designed under the new norms of the NCERT Syllabus and guidelines. It holds a modern approach of teaching for the development of a young and creative mind. The illustrations and fun filled activities along with the class room teaching facilities the learners to develop power of thinking and analyzing. The syllabus is designed so that the assessment system, child's Psychology, period distribution quality grasping and activities goes hand in hand systematically.

GENERAL GUIDELINES FOR THE STUDENTS

1. Students should be present in the class at the start of the period and reach in time for all other activities and functions.
2. Attendance on the last day of school before vacation and first day of the school after vacations is absolutely essential.
